**Subject:** Revised Final Work Plan for RI Addendum and Final FS

Brad,

The revised final work plan for the Remedial Investigation Addendum and Final Feasibility Study is attached. The work plan has been revised in accordance with the comments EPA provided on March 7, 2016.

Regarding EPA's proposed deletion of the Respondents' scheduling concerns (Comment #5, Bridgeton and Cotter would like to note that we have agreed to remove the language in question specifically (and only) at EPA's request. As we've advised EPA on numerous prior occasions, we continue to have real concerns about the aggressive schedule set by EPA for the completion of this work. We'll make every effort to timely meet it, and will continue to keep EPA apprised of our progress as the work progresses.

Please let me know if you have any questions or require anything further with regard to this work plan.
